SATHANA S

+91 9025939353 • sathana0205@gmail.com

summary

To start my career in the IT field by applying my skills in Python, SQL, Power BI, and Excel. To contribute to data-driven projects that support organizational growth and innovation. To continuously enhance my technical expertise and evolve as a skilled professional.

Skill

- Python programming
- SQL programming
- Power BI
- Excel
- Git and GitHub

Projects

Student Management (CRUD)-Built Using Python and SQL

This project showcases the integration of Python with a relational database to perform real-time data operations. It can be used as a foundational system for managing student data in schools, colleges, and other academic institutions.

Sales Dashboard-Built Using Excel

Developed an interactive sales dashboard using Microsoft Excel to analyze and visualize key business performance metrics. The dashboard provided a consolidated view of sales data across regions, products, and time periods, enabling stakeholders to make data-driven decisions.

Education
